

Hebrew Alphabet Studies:

"qoph" can mean 'back of the head' or 'monkey'

ק is the number 100 'Q' (in English)

"Holy" (Qodesh) in Hebrew is spelled קדש

"to Call Out" (Kara) in Hebrew is spelled קרא

Note: the ק & ד (resh & dalet) are very similar in appearance.

Qodesh קדש & Kosher/Kashrut כשר
'set apart for God' & 'fit for ritual use'

An entire kosher industry has been built upon the foundation of one scripture in the Torah: (Exodus 23:19) "The **FIRST** of the **firstfruits** of thy land thou shalt bring into the house of the Lord thy God. **Thou shalt not see the a kid (goat or sheep) in his mother's milk.**"

This has been stretched & added to through the ages to where now 'kosher' means all meat & dairy are strictly kept apart—even to the point of having 2 separate kitchens & utensils. To be 'kosher,' sold goods must be approved by a rabbi (Jewish priest).

If the verse is analyzed in its entirety, the concept of things being made 'kosher' is related to the tithe (firstfruits). The PURPOSE OF THE TITHE (the FIRST 10%) is to **sanctify** and **protect** the other 90%. The 'prince of this world' (John 14:30) is a thief (John 10:10) & has access to anything that has not been **sanctified via the firstfruit offering**. (Other offerings are 'seeds' that later produce a 'harvest,' but the firstfruit tithe offering **sanctifies** the rest—so that they cannot be stolen by the thief.)

Just as the giving the firstfruits sanctifies **money** or income, the kosher process seeks to **sanctify food**. Assuredly, **both** need **sanctification**, but, even the best translation & interpretation of the above scripture taken **by itself** does NOT suggest separate utensils or kitchens. The Word of God **sanctifies** food (1 Tim. 4:5) because 'clean' food is **defined** in *Leviticus 11*. That's why people who live by the Bible don't eat horses, cats...or pigs. **DID 'FATHER' ABRAHAM KEEP KOSHER LAWS?**

Genesis 18:8: "He (Abraham) took butter, MILK & the CALF which he had dressed & set it before them (the angels) & he stood by them under the tree & they did eat." (Abraham prepared & served **meat & dairy** together!)

MONKEY to MAN MYTHOLOGY—using the 'back of the head' (skulls) Missing Links?

Australopithecus ('Lucy')—various species of Australopithecus have been rejected now as human ancestors, all but one: Australopithecus afarensis or 'Lucy' (named after a favorite song of Lucy's discoverer: 'Lucy in the Sky with Diamonds'-LSD). Detailed studies of the inner ear, skulls and bones have suggested that 'Lucy' & her like are **not** on the way to becoming human. They may have walked more upright than most apes & were probably just **pygmy chimpanzees**.

Homo erectus (includes Java Man & Peking Man)—many remains of this type have been found around the world. They are smaller than the average human today, with an appropriately **smaller head** and brain size. But, the brain size is within the range of people today. Studies of the middle ear have shown that Homo erectus **was just like us**. Remains have been found in the same strata and in close proximity to ordinary Homo sapiens (humans), suggesting that they lived together.

Homo floresiensis ('Hobbits')—The cave where scientists found the Hobbit on the Indonesian island of Flores in 2003 **also** contained remnants of stone tools, fire & a pygmy elephant. DNA tests were done in March 2008 which suggested the Hobbits were simply **little people**—possibly iodine deficient (missionaries have photos of very small people living in that area until recently). But other scientists say the DNA samples were contaminated & more fossils need to be found.

Homo habilis—there is a growing consensus among most paleoanthropologists that this category actually includes **bits and pieces of various other types**—Australopithecus & Homo erectus. It is therefore an 'invalid taxon.' That is, **it never existed as such**.

Neandertal man (Homo sapiens neanderthalensis)—It is now admitted that the stooped posture was due to vitamin D deficiency & Neandertal is **just a variation** of the **human** kind.

Nebraska man (Hesperopithecus) - a **hoax** based on a single tooth of a **type of pig** which was found to be still alive & well in Paraguay.

Pitdown man (Eoanthropus) — a **hoax** based on a human skull cap and an orangutan's jaw that had been 'monkeyed with' by overanxious 'scientists.' It was widely publicized as the missing link for 40 years & is still in some older encyclopedias.

Ramapithecus—once widely regarded as the ancestor of humans, it has now been declared to be an **extinct type of orangutan** (an ape).

Conclusion: **There is simply NO definitive fossil evidence that man is the product of evolution.** The missing links are missing because they do NOT exist!

The Bible clearly states, "And the Lord God formed man of the dust of the ground, and breathed into his nostrils the breath of life; and man became a living soul."(Gen. 2:7).

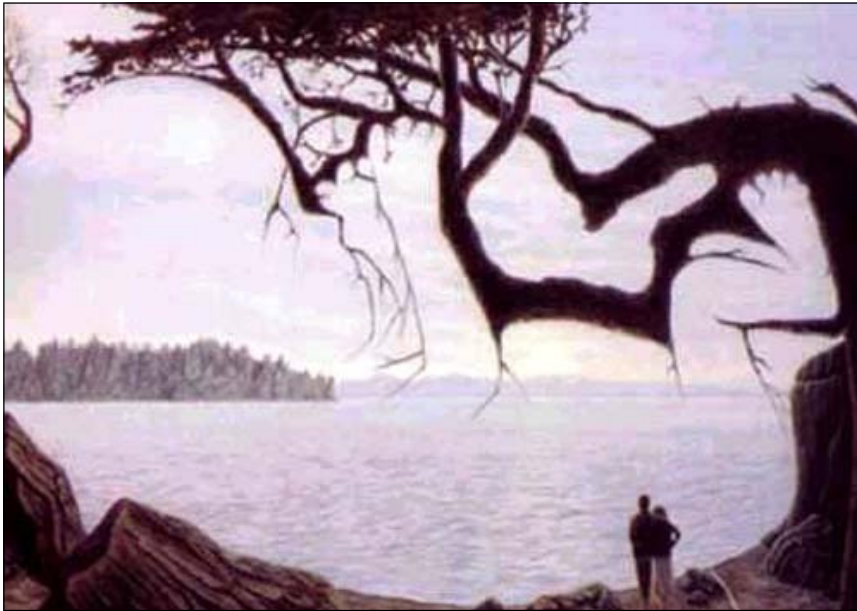

Duck?

or Rabbit?

It's all on HOW you look at it! Your FOCUS.

For instance, below you may see a couple looking at the water with a tree in the foreground—but someone else may see the large baby filling up nearly the whole picture. In these instances, BOTH are correct interpretations.

'Once Upon a Time...'

BUT, when scientists make GUESSES about the age, origin & development of life on earth based the presupposition that the earth's atmosphere has always **remained the same** (*meaning NO global flood*), and calling those GUESSES 'science,' they are imposing a belief that is NOT observable—hence, NOT 'science.'

FRUITS OF A THEORY

What began this 'Descent of Man' was a racist book by that name & another by the same author, Charles Darwin, called 'The Origin of Species by means of Natural Selection OR 'The **Preservation of FAVORED RACES** in the Struggle for Life' in 1859. Darwin was not a scientist, his degree was in Theology & he wrote the handbook for a religion based upon faith in man, rather than in God. Darwin's contemporary, the founder of Communism, Karl Marx, wrote: "Darwin's book is very important & serves me as a **basis** in natural selection for the class struggle in history' (*survival of the fittest*).

Then, in the 1900's, Communist leaders Lenin & Stalin (who, while in college, had also abandoned their Christianity & embraced Darwinian Evolution), used Darwin's works to justify the execution of millions of their own 'lesser fit' people. Mao Tse-tung regarded Darwin as the 'foundation of Chinese scientific socialism.' The policies that Mao originated resulted in the murder of as many as 80 million Chinese people. Adolph Hitler, too, was a huge fan of Darwin's work & believed he was helping human evolution by eliminating those 'less fit.'

Since government schools have enforced the teaching of the **theory of evolution**, student violence has multiplied. Summing up the philosophy, convicted murderer Charles Manson declared, 'once I realized (*in school*) that I was just an animal...'

By contrast, wherever the Biblical perspective of human origins has been embraced, great advances have been made in science & industry. Two men who, early on, stood against the tide & **REJECTED** the Theory of Evolution were Louis Pasteur & George Washington Carver. Many others secretly rejected it.

Now, even with government schools & universities defining 'science' as 'evolution' & using belief in it as a litmus test for funding & tenure, there are still over 650 scientists with earned doctorate degrees who **OPENLY REJECT** this theory. www.icr.org
